

| Technology Student Association Work Log |  |               |  |   |
|---|--|---------------|--|---|
| Date                                    | Task   | Time involved | Team member responsible (student initials) | Comments  |
| 1. 11/26/2025                           | Brainstorming  | 2 hours       | VB, GS                                     | Meeting about which community should we make the website on. Both of us gave few ideas to each other but we finally decided on "Frisco, Texas". |
| 2. 11/28/2025                           | Gathering Info.  | 2 hours       | GS   | Finding main information for the first 3 pages of the website (home page, about page, and the blogs page)                                       |
| 3. 12/01/2025                           | Creation of skeleton HTML file for home page, about page, and blogs page | 4 hours       | VB   | Creating the HTML only coded website for the first 3 pages of the website.  |
| 4. 12/02/2025                           | Gathering Info.  | 2.5 hours     | GS   | Finding all of the necessary information for the "highlights" page and "resources" page   |
| 5. 12/04/2025                           | Creation of skeleton HTML coded pages.                                   | 5 hours       | VB   | Creating the HTML only coded website for the highlights page, resources page and the references page of the website.                            |
| 6. 12/08/2025                           | CSS and Javascript   | 8 hours       | VB   | Finishing up the website by coding it for CSS, and JavaScript   |
